

# Transfer Box

## Catalog # 35855

Fabricated of Aluminum to keep it light-weight and easy to carry. The Transfer Box is 21" Long x 12" Wide x 14" Tall.

Each side has a pattern of perforated 1/2" Dia. holes on 1/2" staggered centers.

A 3/4" Dia. aluminum tube handle is centrally located on the top.

A Stainless Steel spring loaded latch is provided for the slide door at each end of the cage.

Each slide door has two finger lifts, and slides on UHMW. The box has a channel on each end to support itself on Transfer box rods.
