

# Bio-Containment Chamber - Mouse

## Catalog # 38048

The Mouse Bio Containment Chamber is constructed of stainless steel. It is designed to house our customers existing mouse cages. The Chamber shown is 45" long x 22" deep.

This particular Chamber shown was designed to hold mouse cages 8" W x 7-1/2" T x 16" L. It can hold 10 of these mouse cages. We can design this Chamber to hold any size of caging.

Room air is drawn into the cage through a HEPA filter on the front door.

A fan module filters cage air before being exhausted back into the room. Fan modules are equipped with adjustable fan speeds. They will accommodate the optional Battery Backup.

A full size door opens and has mechanical devices for seal compression.

All doors and windows are made from tempered glass. Tempered glass windows are provided on the top and sides of the Chamber to help provide more light. .

Handles are provided on each end of the cart for maneuverability. Two shelves are on the cart for storage.

A removable wire shelf is on the inside of the Chamber.
